22nd September 2025

Dear Parents/Carers

I hope this letter finds you well.

I am writing to inform you that, after the upcoming half term, we will be commencing practical lessons in both Food and Design Technology for students in Years 7, 8, and 9. These practical sessions are an exciting and essential part of our curriculum, allowing students to engage hands-on with their learning and develop valuable skills in cooking, crafting, and design.

In order to ensure these lessons are fully resourced and to make it as convenient and cost-effective as possible for families, we are requesting a voluntary contribution of £15 for the full academic year. This contribution covers all food ingredients used in Food Technology lessons as well as materials for Design Technology projects. Additionally, this will allow students to take home the dishes or products they create during these practical sessions.

Contributions can be made via ParentPay. While this payment is voluntary, it greatly supports the smooth running of the lessons and helps us provide high-quality resources and materials to all students.

We greatly appreciate your support in enriching your child's learning experience.

If you have any questions or concerns regarding the contribution, please do not hesitate to contact below.

Thank you for your continued support.

Mrs D Kendall
