## Principal's Newsletter

My second week at the academy has been fantastic. Every day, I see our students and staff living our core values of excellence, equity and integrity. It has been great to see the pride everyone has in our academy.

One of the highlights of the week was our success at the Consilium Olympics at the John Charles Centre for Sport in Leeds. Our students were crowned champions after competing against seven other academies from across the Trust. They showed a real commitment to excellence in every event. They also encouraged and supported each other, showing the integrity that makes our academy such a special place. We are very proud of the way they represented us.

Our Year 10 students have also impressed us during their work experience with VolkerRail and Keepmoat Homes. All 24 students completed their placements and gave confident presentations about what they had learned. They made the most of this opportunity by building new skills and showing resilience, professionalism and integrity throughout. These experiences support our commitment to giving students the chance to grow in confidence, learn new skills and think about their future careers.

Our Year 8 students also attended an NHS careers event at Doncaster Dome. The event gave them the chance to learn about different jobs and career pathways. Opportunities like this help us deliver equity, making sure every student can explore their future and aim high.

I am also delighted to welcome Mr Thomas, our new Lead Teacher for Maths. He will be working with our Key Stage 4 students to help improve outcomes and support our drive for excellence in teaching and learning, so every student can achieve their best.

Finally, I would like to thank everyone for the warm welcome I have received. It has been wonderful to meet so many friendly students, staff and families. The kindness, respect and strong sense of community make this a very special academy. I am excited about what we can achieve together and look forward to building on our shared values.
